Haluatko oppia uusia keinoja tukea perheiden hyvinvointia?

Tule mukaan kehittämään pedagogista osaamistasi!

Haluatko syventää yhteistyötaitojasi?

OSAAMISEN YHTEIS- LOIKKA

The trilogy of early education projects

- develops professional competence of preservice and in-service early education teachers.
- responds to growing work-life needs and quality demands in collaboration with a multidisciplinary university network and interest groups.
- renews in a cost-effective way preservice and in-service teacher education by creating web-based learning environments.
- produces multidisciplinary scientific knowledge as a basis for recommendations and decision-making.

Do you want to foster the well-being of children and families?

- Learn how to improve your evidence-based pedagogical and assessment skills with your team.
- Learn how to adopt more diverse social interaction skills and models to promote children's language, social and emotional development and self-regulation skills and lifelong learning.
- Learn how to prevent problems using sensitive interaction that target key developmental domains and strengthen favorable development and identity of children from diverse familial, cultural and language backgrounds.

Do you want to advance your cooperative skills?

- You will learn how to improve your professional competence based on diverse work community skills:
 - shared team learning
 - participatory team leadership
 - educational multi-professional collaboration
 - educational collaboration with parents
 - national and international educational collaboration

Jump along! to develop your pedagogical competence!
